Clinica Chimica Acta 286 (1999) 277–279

Subject index

Volume 286 (1999)

ACAT inhibitor; ACAT1; ACAT2; Apolipoprotein B metabolism; Kinetics **286**, 231

ACAT1; ACAT2; ACAT inhibitor; Apolipoprotein B metabolism; Kinetics **286**, 231

ACAT2; ACAT1; ACAT inhibitor; Apolipoprotein B metabolism; Kinetics **286**, 231

Adipose tissue development; Cell surface receptors; Nuclear receptors; Ligands **286**, 181

Adolescents; Epidemiology; Public health; Type 2 diabetes; Children; Obesity **286**, 81

Animal models; Atherosclerosis; Apolipoprotein E; Gene polymorphism; Lipoproteins; Dyslipidemia **286**, 115

Apo A-I; HDL; Apo A-II; Apo A-IV; Transgenesis; Mice; Rabbit; Clinical studies **286**, 97

Apo A-II; HDL; Apo A-I; Apo A-IV; Transgenesis; Mice; Rabbit; Clinical studies **286**, 97

Apo A-IV; HDL; Apo A-I; Apo A-II; Transgenesis; Mice; Rabbit; Clinical studies **286**, 97

Apolipoprotein A-I; Kinetic studies; HDL cholesterol; Triglycerides; Cholesteryl ester transfer protein; Intravascular lipases **286**, 145

Apolipoprotein B; Coronary disease; Prevention; Risk factors for vascular disease **286**, 7

Apolipoprotein B metabolism; ACAT1; ACAT2; ACAT inhibitor; Kinetics **286**, 231

Apolipoprotein E; Atherosclerosis; Gene polymorphism; Lipoproteins; Dyslipidemia; Animal models **286**, 115

Atherogenesis; Homocysteine; Cardiovascular disease **286**, 63

Atherosclerosis; Apolipoprotein E; Gene polymorphism; Lipoproteins; Dyslipidemia; Animal models **286**, 115

Atherosclerosis; Diabetes; Obesity; Polygenic disease **286**, 47

Atherosclerosis; High density lipoprotein; HDL; Cholesterol; Cholesterol efflux; Cardioprotection **286**, 219

Atherosclerosis; LCAT; Structure and function; LCAT deficiency; FER_{HDL}; Reverse cholesterol transport **286**, 257

Atherosclerosis; Leukocytes; VCAM-1; ICAM-1; Mouse models **286**, 207

Atherosclerosis; Macrophages; Scavenger receptors; Oxidized LDL; Endothelial cells **286**, 191

Cardioprotection; High density lipoprotein; HDL; Cholesterol; Cholesterol efflux; Atherosclerosis **286**, 219

Cardiovascular disease; Homocysteine; Atherogenesis **286**, 63

Cell surface receptors; Nuclear receptors; Ligands; Adipose tissue development **286**, 181

PII: S009-8981(99)00148-5

Children; Epidemiology; Public health; Type 2 diabetes; Adolescents; Obesity **286**, 81

Cholesterol; High density lipoprotein; HDL; Cholesterol efflux; Atherosclerosis; Cardioprotection **286**, 219

Cholesterol efflux; High density lipoprotein; HDL; Cholesterol; Atherosclerosis; Cardioprotection **286**, 219

Cholesteryl ester transfer protein; Apolipoprotein A-I; Kinetic studies; HDL cholesterol; Triglycerides; Intravascular lipases **286**, 145

Clinical studies; HDL; Apo A-I; Apo A-II; Apo A-IV; Transgenesis; Mice; Rabbit **286**, 97

Coagulation; Herpesviruses; Thrombosis; Endothelium; Vascular smooth muscle cell **286**, 23

Coronary disease; Prevention; Apolipoprotein B; Risk factors for vascular disease **286**, 7

Coronary heart disease; Risk factors; Risk assessment **286**, 31

Diabetes; Atherosclerosis; Obesity; Polygenic disease **286**, 47

Dyslipidemia; Atherosclerosis; Apolipoprotein E; Gene polymorphism; Lipoproteins; Animal models **286**, 115

Endothelial cells; Macrophages; Scavenger receptors; Oxidized LDL; Atherosclerosis **286**, 191

Endothelium; Herpesviruses; Thrombosis; Coagulation; Vascular smooth muscle cell **286**, 23

Epidemiology; Public health; Type 2 diabetes; Children; Adolescents; Obesity **286**, 81

FER_{HDL}; LCAT; Structure and function; LCAT deficiency; Reverse cholesterol transport; Atherosclerosis **286**, 257

Gene polymorphism; Atherosclerosis; Apolipoprotein E; Lipoproteins; Dyslipidemia; Animal models **286**, 115

HDL; Apo A-I; Apo A-II; Apo A-IV; Transgenesis; Mice; Rabbit; Clinical studies **286**, 97

HDL; High density lipoprotein; Cholesterol; Cholesterol efflux; Atherosclerosis; Cardioprotection **286**, 219

HDL cholesterol; Apolipoprotein A-I; Kinetic studies; Triglycerides; Cholesteryl ester transfer protein; Intravascular lipases **286**, 145

Heparin; Hepatic lipase; Lipoproteins; Lipoprotein lipase; Triglyceride; Phospholipid; Lipoprotein receptors **286**, 243

Hepatic lipase; Lipoproteins; Lipoprotein lipase; Triglyceride; Phospholipid; Heparin; Lipoprotein receptors **286**, 243

Herpesviruses; Thrombosis; Coagulation; Endothelium; Vascular smooth muscle cell **286**, 23

High density lipoprotein; HDL; Cholesterol; Cholesterol efflux; Atherosclerosis; Cardioprotection **286**, 219

Homocysteine; Atherogenesis; Cardiovascular disease **286**, 63

ICAM-1; Leukocytes; Atherosclerosis; VCAM-1; Mouse models **286**, 207

Intravascular lipases; Apolipoprotein A-I; Kinetic studies; HDL cholesterol; Triglycerides; Cholesteryl ester transfer protein **286**, 145

Kinetic studies; Apolipoprotein A-I; HDL cholesterol; Triglycerides; Cholesteryl ester transfer protein; Intravascular lipases **286**, 145

Kinetics; ACAT1; ACAT2; ACAT inhibitor; Apolipoprotein B metabolism **286**, 231

LCAT; Structure and function; LCAT deficiency; **FER_{HDL}**; Reverse cholesterol transport; Atherosclerosis **286**, 257

LCAT deficiency; LCAT; Structure and function; **FER_{HDL}**; Reverse cholesterol transport; Atherosclerosis **286**, 257

Leukocytes; Atherosclerosis; VCAM-1; ICAM-1; Mouse models **286**, 207

Ligands; Cell surface receptors; Nuclear receptors; Adipose tissue development **286**, 181

Lipoprotein lipase; Hepatic lipase; Lipoproteins;

Triglyceride; Phospholipid; Heparin; Lipoprotein receptors **286**, 243

Lipoprotein receptors; Hepatic lipase; Lipoproteins; Lipoprotein lipase; Triglyceride; Phospholipid; Heparin **286**, 243

Lipoproteins; Atherosclerosis; Apolipoprotein E; Gene polymorphism; Dyslipidemia; Animal models **286**, 115

Lipoproteins; Hepatic lipase; Lipoprotein lipase; Triglyceride; Phospholipid; Heparin; Lipoprotein receptors **286**, 243

Macrophages; Scavenger receptors; Oxidized LDL; Atherosclerosis; Endothelial cells **286**, 191

Mice; HDL; Apo A-I; Apo A-II; Apo A-IV; Transgenesis; Rabbit; Clinical studies **286**, 97

Mouse models; Leukocytes; Atherosclerosis; VCAM-1; ICAM-1 **286**, 207

Nuclear receptors; Cell surface receptors; Ligands; Adipose tissue development **286**, 181

Obesity; Atherosclerosis; Diabetes; Polygenic disease **286**, 47

Obesity; Epidemiology; Public health; Type 2 diabetes; Children; Adolescents **286**, 81

Oxidized LDL; Macrophages; Scavenger receptors; Atherosclerosis; Endothelial cells **286**, 191

Phospholipid; Hepatic lipase; Lipoproteins; Lipoprotein lipase; Triglyceride; Heparin; Lipoprotein receptors **286**, 243

Polygenic disease; Atherosclerosis; Diabetes; Obesity **286**, 47

Prevention; Coronary disease; Apolipoprotein B; Risk factors for vascular disease **286**, 7

Public health; Epidemiology; Type 2 diabetes; Children; Adolescents; Obesity **286**, 81

Rabbit; HDL; Apo A-I; Apo A-II; Apo A-IV; Transgenesis; Mice; Clinical studies **286**, 97

Reverse cholesterol transport; LCAT; Structure and function; LCAT deficiency; FER_{HDL}; Atherosclerosis **286**, 257

Risk assessment; Coronary heart disease; Risk factors **286**, 31

Risk factors; Coronary heart disease; Risk assessment **286**, 31

Risk factors for vascular disease; Coronary disease; Prevention; Apolipoprotein B **286**, 7

Scavenger receptors; Macrophages; Oxidized LDL; Atherosclerosis; Endothelial cells **286**, 191

Structure and function; LCAT; LCAT deficiency; FER_{HDL}; Reverse cholesterol transport; Atherosclerosis **286**, 257

Thrombosis; Herpesviruses; Coagulation; Endothelium; Vascular smooth muscle cell **286**, 23

Transgenesis; HDL; Apo A-I; Apo A-II; Apo A-IV; Mice; Rabbit; Clinical studies **286**, 97

Triglyceride; Hepatic lipase; Lipoproteins; Lipoprotein lipase; Phospholipid; Heparin; Lipoprotein receptors **286**, 243

Triglycerides; Apolipoprotein A-I; Kinetic studies; HDL cholesterol; Cholesteryl ester transfer protein; Intravascular lipases **286**, 145

Type 2 diabetes; Epidemiology; Public health; Children; Adolescents; Obesity **286**, 81

Vascular smooth muscle cell; Herpesviruses; Thrombosis; Coagulation; Endothelium **286**, 23

VCAM-1; Leukocytes; Atherosclerosis; ICAM-1; Mouse models **286**, 207
